BASES OF THE CALL 2017

PRESENTATION

Mucho Más Mayo Emerging Art Festival is a program of artistic interventions in the urban background developed by creators in all creative records, using public spaces and unconventional places of the city and municipality of Cartagena (Region of Murcia, Spain).

The festival includes a public call for artistic projects that in this edition is regulated according to the following bases: BASES OF THE CALL

The City of Cartagena announces the 2017 Edition of the Much More May Festival to be held between May 12th and 21th of this year.

The purpose of this call is the selection of projects of creators that will be part of the new program MUCHO MÁS MAYO in its edition of 2017. MOTTO OF THE 2017 EDITION

The motto of the call will be " **Imaginative Communities** ".

"Human groups of all kinds culturally construct their identity, which belongs to the collective imagination. This identity is actually multiple (many), fragmented, overlapping, changing, although at any moment some of them takes a hegemonic position. This question has become very present in these times of withdrawals and closures of identity and produces effects on the real. But also as a result of the imagination we can devise other possible communities. "

Projects that accept or address this theme will be given priority in the selection process. However, projects that do not respond to it, will be accepted without limitation too.

Special attention will also be given to projects that respond to the motto "**2017 Year of the Enlightenment**" chosen by the City Council of Cartagena as a commemoration for 2017.
